### UC San Diego

# Future Leaders Summer Program

Fostering problem-solving, diplomacy and negotiation skills July 12 – Aug. 1, 2020

This unique summer program at UC San Diego is designed for high school students to develop problem-solving and diplomacy skills in global affairs, especially as they pertain to the roles of China, the U.S., Pacific and Indo-Pacific region countries including Mexico and India. In this program, you will participate in a digital simulation platform and role-playing teams. Through guided readings, lectures, discussion and negotiations, you will produce an action plan that emphasizes common-ground solutions in four areas: climate change, energy innovation (e.g. renewable energy, electric vehicles, etc.), artificial intelligence and international trade.

### **PROGRAM AT A GLANCE**

- Cross-cultural teams of students living on campus
- Game-based approach to tackling global issues
- Simulation of negotiation on key global policies
- Taught by award-winning teachers from the U.S.
- Lectures on special topics by renowned professors of international relations
- Visits to world-class lab and research institutions
- Q&A session about college admission process
- Offsite experiences to San Diego beaches, cultural and historical sites

### Testimonials

"This program positively impacted my future and helped shape my decision to study International Relations. It was a truly unforgettable experience filled with laughter, learning and life-long friends."

- Madison Malowney, currently a student at Leiden University (The Hague)

"I learned a lot from the program, from public speaking skills to working in a multicultural team, and I grew my sense of independence."

- Matthew Kwok, currently a student at University of Southern California
