

U.S.-China Future Leaders Summer Program

Fostering problem-solving, diplomacy and negotiation skills

July 15 – Aug. 4, 2018

This unique summer program at UC San Diego is designed for students to develop problem-solving and diplomacy skills to simulate negotiations and policymaking in global affairs and U.S.-China relations.

You will participate in game-based, role-playing teams. Through guided readings, discussion and negotiations, you will produce an action plan that emphasizes common-ground solutions.

PROGRAM AT A GLANCE

- Teams of Chinese and American students living on campus
- Game-based approach to tackling global issues
- Simulation of negotiation on key policies in U.S.-China relations
- Taught by award-winning teachers from the U.S. with lectures on special topics by renowned professors of international relations
- Visits to world-class lab and research institutions
- Official transcript from UC San Diego
- Q&A session about college admission process
- Offsite experiences to San Diego beaches, cultural and historical sites

Testimonials

"It made me more confident in communications and problem solving, which really helps me prepare for college."

– **Xiya Li, senior, San Diego/Shanghai**

"It was eye-opening to learn about U.S.-China collaborations, and discover new ways to understand global policy."

– **Jiemin Chai, junior, New York City**

U.S.-China Future Leaders Summer Program
