

## ABOUT

The mission of the 21st Century China Center at the UC San Diego School of Global Policy and Strategy is to produce and disseminate impactful, evidence-based research about China and to enhance U.S.-China mutual understanding by advancing scholarly collaboration, convening policy discussions, and actively communicating with policymakers and the general public in both countries.

## Producing Cutting-Edge Research

We are a community of discovery-driven thinkers conducting groundbreaking research covering a wide range of topics, including politics, public policy, society, economy, security, foreign policy, energy and environment, science and technology, and Chinese culture.

## Crafting Policy Reports That Matter

We take an evidence-based approach to the policymaking process by convening discussions, organizing briefs and issuing reports to inform policymakers on key issues facing our global community.

## Forging Partnerships and Bilateral Engagement

We undertake collaborative projects with scholars from China and elsewhere and organize academic conferences and policy dialogues that bring together Chinese universities and institutions with leading U.S.-based voices studying China.

## Training the Next Generation of Experts

Students work with faculty, visiting scholars and government and business leaders who teach them 21st century skills while cultivating their research interests and providing a foundation for their career path.

## Connecting Communities in the U.S. and China

Through public events, lecture series and policy forums, we share our knowledge with educators, students, media, business, civic leaders and youth and connect with other education organizations in China, California and beyond.
